

FÉLICETTE

ROUSSILLON · SOUTH OF FRANCE

Félicette was the first cat ever sent to space, leaving on a French rocket, in 1963. A small feline pioneer with serious star power. That spirit of curiosity, adventure, and just a little mischief runs through the whole range.

Made in the sun-drenched Roussillon, Félicette is built around Grenache seen from a fresh angle: bright, modern wines with a Mediterranean pulse and plenty of personality. Familiar grapes, new orbits.

*Curious wines for
curious humans.*

BOLDLY GOING WHERE NO WINE HAS GONE BEFORE.

Serious about wine. Not so serious about the rest.

Félicette is the work of three friends in the Roussillon, guided by Fergal Tynan MW's lifelong love of Grenache. It started as an exploration: could we make the most fun, approachable Grenache-based wines out there? The Roussillon was the perfect place to touch down. Since then the range has ventured into uncharted territories, all built around one principle: make out-of-the-ordinary wines that are fun, inviting, and meant to be shared.
